**UNIONISM UNSELFISH.**  
The allegation has frequently been made that trade unionists are selfish; that they are seeking to promote their own welfare, to advance their own interests to the exclusion of those who are unorganized, yet every one who has observed and studied the trade union movement of our own times and of the times gone by knows that the most altruistic movement the world has ever produced is the trade union movement.—W. G. E. Ammons vs. Eliza Lancaster et al. No. 13700

Before J. R. Ailor, Justice of the Peace for Knox County Tennessee.  
In this cause, it appears by affidavit that the defendant Eliza Lancaster and her unknown heirs are justly indebted to plaintiff, and are non-residents of Tennessee, so that ordinary process of law cannot be served upon them and an original attachment having been levied upon her property and returned to me, it is therefore ordered that publication be made in the Knoxville Independent, a newspaper published in the City of Knoxville, Tenn., for four consecutive weeks, commanding the defendant, Eliza Lancaster, to appear before me, at my office in Knoxville, Tenn., on the first day of Feb. 1918 and make defense to said suit, or it will be proceeded with ex parte.

**LOOK FOR THE LABEL.**

When purchasing goods even from merchants who you know carry union label goods, always ask for union label goods and be sure that you get them to protect yourself against purchasing non-union goods that they may also have in stock. Another good reason for always demanding union label goods, even though you know the goods the merchant will sell you do bear the union label, is that you will let him know that you will always be on guard to promote the sale of union made goods and that you never forget it.

## GARFIELD ORDERS ALL INDUSTRIES TO CLOSE

Five Days—Order Includes All Territory East of the Mississippi

The States of Minnesota and Louisiana Are Included—Command Set Forth Is the Most Drastic and Sweeping Fuel Priority Order Given.

Washington.—For five days every industry in the United States, east of the Mississippi River, including even the war industries, must close down. The States of Minnesota and Louisiana are included. This is the command sent forth in the most drastic and sweeping fuel priority order ever issued by the Government. Its purpose is to meet the serious coal famine. The same order fixes every Monday from January 28 to March 25, inclusive, as a holiday. Several exceptions were made in the order with regard to certain industries, which, like blast furnaces, would be ruined by any cessation of their plants, and manufacturers of perishable food-stuffs.

Newspapers are excepted entirely from four of the five days, but they are limited to holiday editions on the nine Mondays designated. On such days they may only print such editions as they are accustomed to issue on national holidays. Those papers not accustomed to issue any editions on such holidays may print not more than one edition. Dr. H. A. Garfield, Federal Fuel Administrator, said that failure to observe the order will make a person liable to the provisions of the Lever law. This imposes a maximum of \$5,000 fine, or a jail sentence. The order fits in with that of Director General W. G. McAdoo giving preference to coal, food and bunker coal for the ships carrying supplies to the allies. The two have been in conference several times over the problem and the only difference lies in the fact that Mr. McAdoo is moving other emergency essentials besides coal. While the order does not mention shipyards, it is known that they will be permitted to continue operations, as usual, although munitions plants will be closed.

## TAKE OVER PACKING PLANTS

Put Under Federal Control, Labor to Urge Wilson—Barons Decline to Aid in Crisis.

Chicago.—The immediate taking over of all the packing plants in the United States will be urged upon President Wilson by a delegation representing every craft in the country and headed by John Fitzpatrick, President of the Chicago Federation of Labor, which departed for Washington. A statement issued by representatives of the employees said: "The organized packers of the country have refused to meet us or to co-operate with us in any manner in this great world crisis. They have brazenly repudiated the solemn agreement entered into between the President and ourselves, through the Mediation Commission, upon last Christmas morning. The packing industry is the most vital and important one in the nation. To permit this industry during the progress of a world war to remain in the private hands of a very few men would not only be ridiculous, from the standpoint of governmental policy, but highly dangerous to the cause of civilization and world democracy for which we are struggling."

The workers will propose to President Wilson that in case the plants are taken over they will enlist as the first members of America's industrial army and will guarantee the Government full-handed equipment for every packing plant in the United States. They also propose to leave all conditions of employment and wages to the Government.

Oustinnoff, Russian Consul General in this city. Iseguine was found in his apartment with a bullet wound in his breast, and it was said at a hospital that he had only a slight chance.

**Rich to Be Restricted in Foods.**  
New York.—Drastic food restrictions soon will be applied to the persons of wealth in New York City and throughout the nation, according to a statement made here by F. C. Wakcott, personal representative of Food Administrator Hoover.

**Robbers Look Bank Officials in Vault.**  
Minneapolis, Minn.—Four bandits without masks held up the Continental State Bank in the business district, locked five employees in a vault and escaped in an automobile with \$3,400 and a \$500 tie pin taken from F. K. Stratky, president of the institution.

**Jap Bank for Peru.**

## COLLECTIVE BARGAINING.

The trade union movement represents the desire of wage earners to improve their condition in life, says the Shoe Workers' Journal. It is a recognition that the individual worker is in no position to bargain with the employer as to the amount of his wages or the conditions of his labor, but that the whole number of employees in a given industry or in a given operation of a stated factory may, by combining as one, make what is known as a collective bargain with the employer and thus benefit themselves through their collective bargain, when acting separately as individuals they would be defeated. This principle of collective bargaining is vital to the success of the organized wage earner. Trade unions have sought from the inception of the movement for the establishment of this principle of collective bargaining.
